IN RE: Petitioner:  
Beneficiary:

Petition: Petition for a Nonimmigrant Worker Pursuant to Section 101(a)(15)(H)(i)(b) of the Immigration and Nationality Act, 8 U.S.C. 1101(a)(15)(H)(i)(b)

IN BEHALF OF PETITIONER:

**PUBLIC COPY**

INSTRUCTIONS:

This is the decision in your case. All documents have been returned to the office which originally decided your case. Any further inquiry must be made to that office.

If you believe the law was inappropriately applied or the analysis used in reaching the decision was inconsistent with the information provided or with precedent decisions, you may file a motion to reconsider. Such a motion must state the reasons for reconsideration and be supported by any pertinent precedent decisions. Any motion to reconsider must be filed within 30 days of the decision that the motion seeks to reconsider, as required under 8 C.F.R. 103.5(a)(1)(i).

If you have new or additional information which you wish to have considered, you may file a motion to reopen. Such a motion must state the new facts to be proved at the reopened proceeding and be supported by affidavits or other documentary evidence. Any motion to reopen must be filed within 30 days of the decision that the motion seeks to reopen, except that failure to file before this period expires may be excused in the discretion of the Service where it is demonstrated that the delay was reasonable and beyond the control of the applicant or petitioner. Id.

Any motion must be filed with the office which originally decided your case along with a fee of \$110 as required under 8 C.F.R. 103.7.

FOR THE ASSOCIATE COMMISSIONER,  
EXAMINATIONS

  
Robert P. Wiemann, Director  
Administrative Appeals Office

**DISCUSSION:** The nonimmigrant visa petition was denied by the Director, Nebraska Service Center, and is now before the Associate Commissioner for Examinations on appeal. The appeal will be dismissed.

The petitioner is a medical information service. It seeks to employ the beneficiary as a programmer/analyst for period of three years. The director determined the petitioner had not established that the offered position qualifies as a specialty occupation.

On appeal, counsel states that case law demonstrates that the Service traditionally recognizes the position of computer programmer as a specialty occupation. Counsel further states that the Service has previously approved H-1b petitions for the same position.

Section 101(a)(15)(H)(i)(b) of the Immigration and Nationality Act (the Act), 8 U.S.C. 1101(a)(15)(H)(i)(b), provides in part for nonimmigrant classification to qualified aliens who are coming temporarily to the United States to perform services in a specialty occupation. Section 214(i)(1) of the Act, 8 U.S.C. 1184(i)(1), defines a "specialty occupation" as an occupation that requires theoretical and practical application of a body of highly specialized knowledge, and attainment of a bachelor's or higher degree in the specific specialty (or its equivalent) as a minimum for entry into the occupation in the United States.

Pursuant to section 214(i)(2) of the Act, 8 U.S.C. 1184(i)(2), to qualify as an alien coming to perform services in a specialty occupation the beneficiary must hold full state licensure to practice in the occupation, if such licensure is required to practice in the occupation. In addition, the beneficiary must have completed the degree required for the occupation, or have experience in the specialty equivalent to the completion of such degree and recognition of expertise in the specialty through progressively responsible positions relating to the specialty.

Pursuant to 8 C.F.R. 214.2(h)(4)(iii)(C), to qualify to perform services in a specialty occupation, the alien must meet one of the following criteria:

1. Hold a United States baccalaureate or higher degree required by the specialty occupation from an accredited college or university;
2. Hold a foreign degree determined to be equivalent to a United States baccalaureate or higher degree required by the specialty occupation from an accredited college or university;

3. Hold an unrestricted State license, registration, or certification which authorizes him or her to fully practice the specialty occupation and be immediately engaged in that specialty in the state of intended employment; or

4. Have education, specialized training, and/or progressively responsible experience that is equivalent to completion of a United States baccalaureate or higher degree in the specialty occupation and have recognition of expertise in the specialty through progressively responsible positions directly related to the specialty.

An educational evaluation of the credentials of the beneficiary finds that he has attained the equivalent of a master of science degree in computer applications awarded by a regionally accredited university in the United States. Accordingly, it is concluded that the beneficiary qualifies to perform the duties of a specialty occupation.

The term "specialty occupation" is defined at 8 C.F.R. 214.2(h)(4)(ii) as:

an occupation which requires theoretical and practical application of a body of highly specialized knowledge in fields of human endeavor including, but not limited to, architecture, engineering, mathematics, physical sciences, social sciences, medicine and health, education, business specialties, accounting, law, theology, and the arts, and which requires the attainment of a bachelor's degree or higher in a specific specialty, or its equivalent, as a minimum for entry into the occupation in the United States.

Pursuant to 8 C.F.R. 214.2(h)(4)(iii)(A), to qualify as a specialty occupation, the position must meet one of the following criteria:

1. A baccalaureate or higher degree or its equivalent is normally the minimum requirement for entry into the particular position;
2. The degree requirement is common to the industry in parallel positions among similar organizations or, in the alternative, an employer may show that its particular position is so complex or unique that it can be performed only by an individual with a degree;
3. The employer normally requires a degree or its equivalent for the position; or

4. The nature of the specific duties is so specialized and complex that knowledge required to perform the duties is usually associated with the attainment of a baccalaureate or higher degree.

The duties of the offered position were listed on initial submission as:

Generally, Mr. Padala will be applying his knowledge of programming techniques and computer systems to consult with clients and identify current operating procedures and clarify client objectives; enter program codes into computer systems, run and test systems; read printouts; and analyze and review programs. He will also be responsible for coding, debugging, and testing the adequacy and applicability of the computer output.

On November 10, 1999, the petitioner described the duties of the offered position as:

His duties will include evaluating the design and development of the client, providing strategic and tactical design solutions, conducting logical analysis of technical problems and formulating mathematical models for solution of the problems. In general, he will be responsible for coding, debugging, and testing the adequacy and applicability of the computer output. If necessary, he will provide modifications and redesign to ultimately ensure functionality of the product.

In this case, the petitioner has outlined the type of work that the beneficiary would perform, but has not presented specific duties for an actual position. Therefore, the petition may not be approved.

Counsel argues that this petition should be approved in view of the approval of other petitions in the past. This Service is not required to approve applications or petitions where eligibility has not been demonstrated. The cases cited by counsel have no precedential effect in this proceeding. 8 C.F.R.103.3(c).

The burden of proof in these proceedings rests solely with the petitioner. Section 291 of the Act, 8 U.S.C. 1361. The petitioner has not sustained that burden.

**ORDER:** The appeal is dismissed.
